TECHNICAL SKILLS

- Developed responsive web apps using HTML5, CSS3, JavaScript, and Figma/Canva for UI design.
- Built RESTful APIs with Node.js & Express, focusing on authentication, error handling, and backend logic.
- Proficient in PostgreSQL/MySQL with experience in Prisma ORM, SQL queries, and stored procedures.

SOFT SKILLS

- Skilled at debugging and building efficient solutions under pressure.
- Contributed actively to group projects with strong communication skills
- Adapted quickly to challenges like bugs and project setbacks

PROFILE

Highly motivated and results-driven IT student at Singapore Polytechnic, with a passion for leveraging technology to solve real-world problems. I thrive in fast-paced, collaborative environments and bring a strong foundation in software development, web security, and data analysis. With hands-on experience in building responsive web applications using HTML, CSS, JavaScript, and Bootstrap, as well as analyzing data using Python libraries like Pandas, NumPy, and Matplotlib, I approach technical challenges with a strategic and analytical mindset. My academic journey has also equipped me with strong skills in networking, algorithmic thinking, and database system analysis. A proactive self-starter, I enjoy taking initiative on group and individual projects, continuously expanding my skill set, and exploring emerging technologies. I'm a firm believer in the power of teamwork and clear communication, and I'm always eager to learn, grow, and contribute to meaningful tech solutions. With all of this, I am eager to take the next step in my tech journey while actively ready to contribute, grow and make a real difference in the industry

WORK EXPERIENCE

Food Service Worker

2024 January-Present

Ace Management Services

- Gained hands-on experience in the F&B industry through agency placements at renowned hotels
- Able to perform food and beverage service duties during high-volume events and daily operations
- -Enjoyed interacting with guests to ensure a pleasant dining experience and handled special requests professionally
- Improved communication skills and customer service abilities in a fast-paced environment
- Able to develop the confidence and professionalism while striving under pressure

ACHIEVEMENTS

- PHS Chemistry Games
- PHS 2021 Top Student Award
- National School Games Top 3

EDUCATION

Presbyterian High School
2020-2023

Singapore Polytechnic
2024-present

LANGUAGES

- English
- Tagalog

ACADEMIC - PROJECTS

Backend Development CA2 | Fitness Challenge Game Combined with Pet Elements

- Developed a fitness challenge web game integrated with pet-raising mechanics to promote healthy lifestyles for pet lovers through the use of RESTFUL API such as Node.js
- Implemented a skill point system allowing users to purchase items and upgrade pet levels.
- Enabled user-generated fitness challenges to foster community engagement and interactive gameplay.

DEUI CA2 | Revamped SP APP UI/UX interface

- Tasked with revamping the mobile app's map layout to improve usability and navigation through developing wireframes in Figma
- Applied a user-centered design approach to align the redesign with real student needs.
- Conducted informal interviews and gathered feedback from students across various schools in SP.
- Translated insights into practical design improvements to enhance user experience and accessibility.

CO - CURRICULAR ACTIVITIES

Volleyball

2020-2023

Presbyterian High School

- Served as Secretary of the Volleyball Main Committee, managing team logistics and internal communications. Participated actively in training, school friendlies, and inter-school competitions, fostering team spirit and discipline. Contributed to organizing team meetings, school friendlies and player attendance. Strengthened teamwork, resilience, and communication through regular practices and competitive play.
